# WHAT IS PUBLI

Publi is a multiplatform server-client software system for easy publishing of any kind of text or multimedia documents. As of today nine main universities in the Czech Republic have been using Publi.

Charles University

Czech Technical University in Prague

Masaryk University

University of Hradec Králové

Technical University of Liberec

Palacký University Olomouc

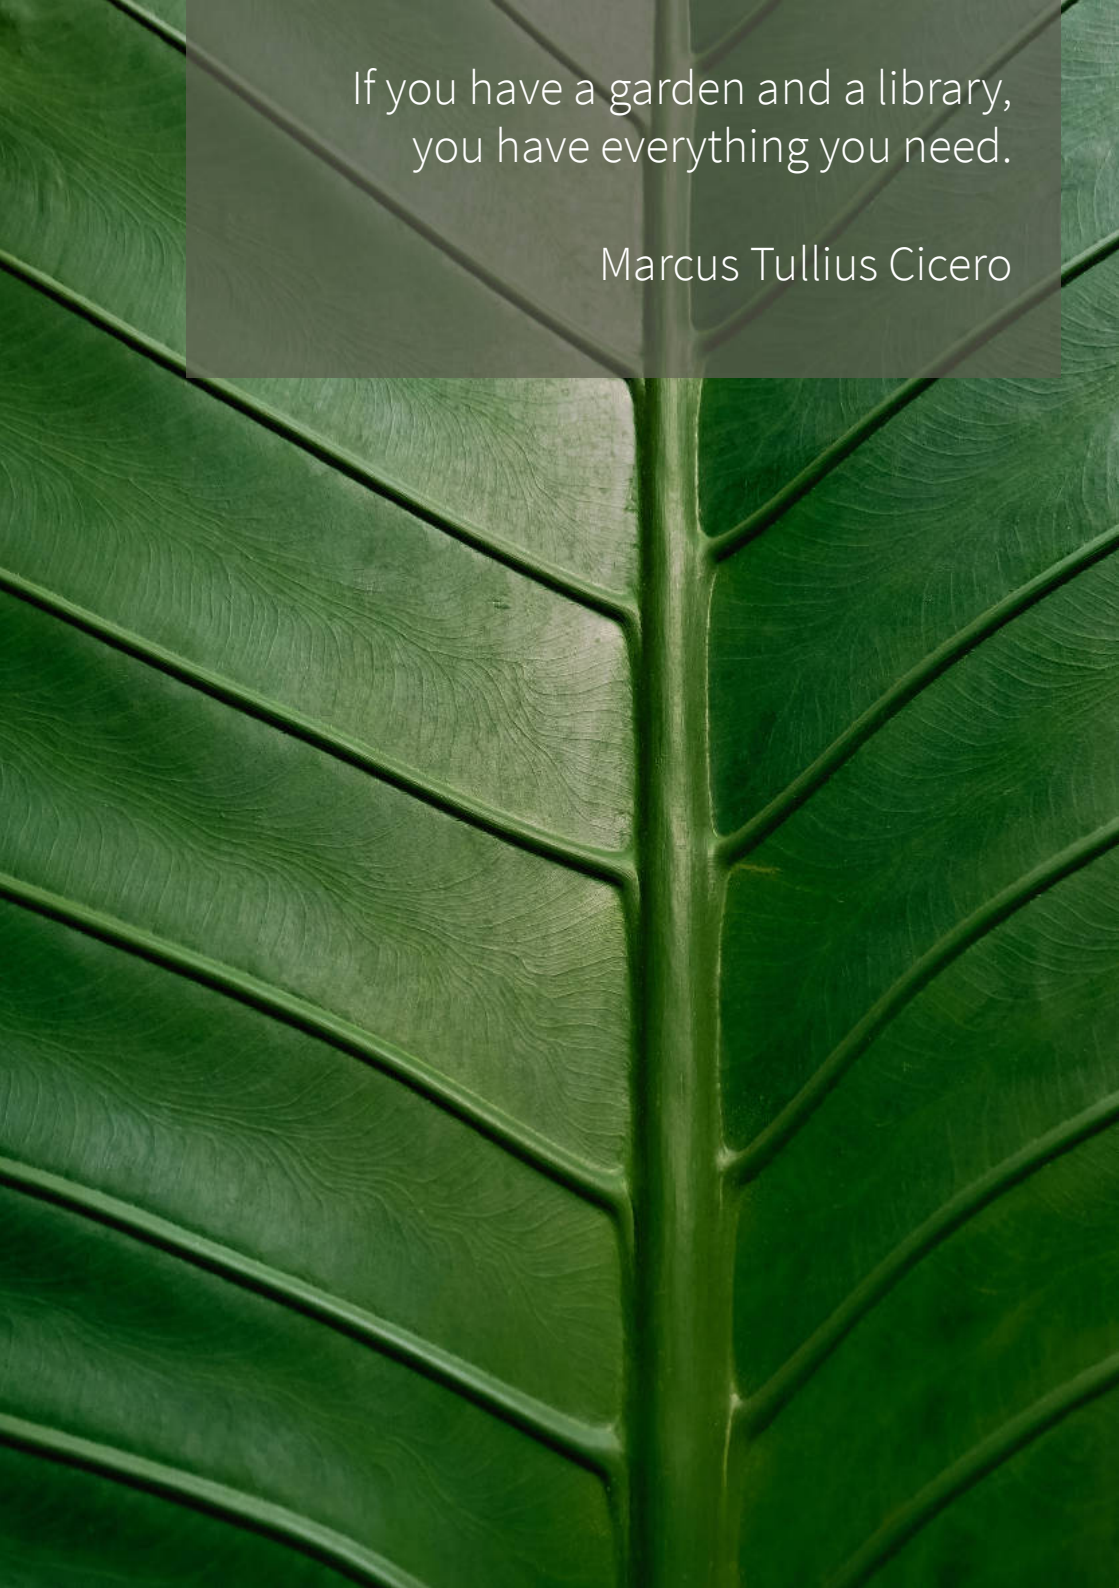

University of South Bohemia

Mendel University in Brno

University of Ostrava

If you have a garden and a library,  
you have everything you need.

Marcus Tullius Cicero

Publi works with live multimedia content. Document content can be enriched by a number of interactive and multimedia elements that upgrade simple reading into fun and effective learning. You can easily highlight selected passages and make abstracts from the text. Thus you do not have to make notes yourself, you can just highlight them, click the abstract icon and the text will be saved in the pop-up window.

Multimedia book *Case studies in Human Resources Management (HRM) in sport*, contributes to the above-mentioned scholarly activities and offers case studies from different international sport contexts that are related to various aspects of HRM. The book is not only covers the gap in the teaching materials for sport management students related to HRM issues but it also highlights the importance of case studies as an educational tool that could impact the development of skills and knowledge development. Case studies presented in this multimedia book focus on the substance of HRM processes taking into consideration the specificities of these processes in sports organizations and in organizing sports events

An aerial photograph of a vast, rugged mountain range. The terrain is characterized by deep, winding valleys and sharp ridges. The mountains are covered in patches of snow and ice, particularly in the higher elevations and along the ridges. The overall color palette is dominated by blues, greys, and whites, giving the scene a cold and majestic appearance. The lighting creates strong shadows, emphasizing the three-dimensional structure of the landscape.

Continuous effort  
— not strength or intelligence —  
is the key to unlocking our potential.

Winston Churchill

# ENCRYPTION

All documents in the Publi system are distributed automatically encrypted. This means that whole Publi system cares for the safety of your documents. It also can be used as a defence against unwanted sharing with unauthorized persons or defence against sharing of paid content.

has a spherical shape, thereby simplifying the structure of the mechanism compared to the piston with the connecting rod. Fluid distribution is provided by the distributor plate 2. In the right part of the figure, the shape of the piston 10 is illustrated. The seal is laminated on the piston.

The transducers with the inclined block can work, after proper equipment with the necessary elements, in both open and closed circuit and are constructed, of course, also as hydraulic motors.

PISTON

An aerial photograph of a lush green valley with terraced rice fields. The fields are arranged in curved, concentric patterns that follow the contours of the land. A small white building is visible in the lower-left quadrant, and a small cluster of trees is in the lower-center. The overall scene is a vibrant display of agricultural landscape.

Perfection is achieved, not when there  
is nothing more to add, but when  
there is nothing left to take away.

Antoine de Saint-Exupery

# CHECKLISTS

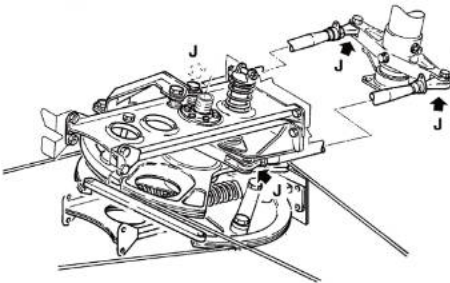

Publi can be used for repeated tasks of maintenance globally and by any team of service personnel. Managers can have access to the information about progress of maintenance operations at any time. During the time of maintenance work no internet connection is needed. E. g. in some shielded garage out of any wi-fi or mobile connection.

Experience is the teacher of all things.

Julius Caesar

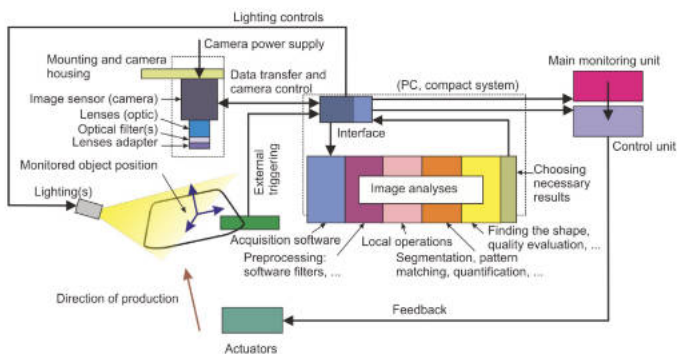

# TESTS

Publi has been developed as an educational system. Because of that Publi has flexible tools for building tests of knowledge. Students can use the tests as part of the study process or for self-study. Subsequently the tests can be used for evaluating of knowledge level.

perspective, it is a rather complicated system containing many elements. The basic configuration diagram of individual (and complementary) elements is shown in Fig. 1.11.

Mrs Smith: Is \_\_\_\_\_ car in \_\_\_\_\_ garage?

Mr Smith: Yes, it is.

Mrs Smith: Where's \_\_\_\_\_ new map?

Mr Smith: It's on \_\_\_\_\_ desk.

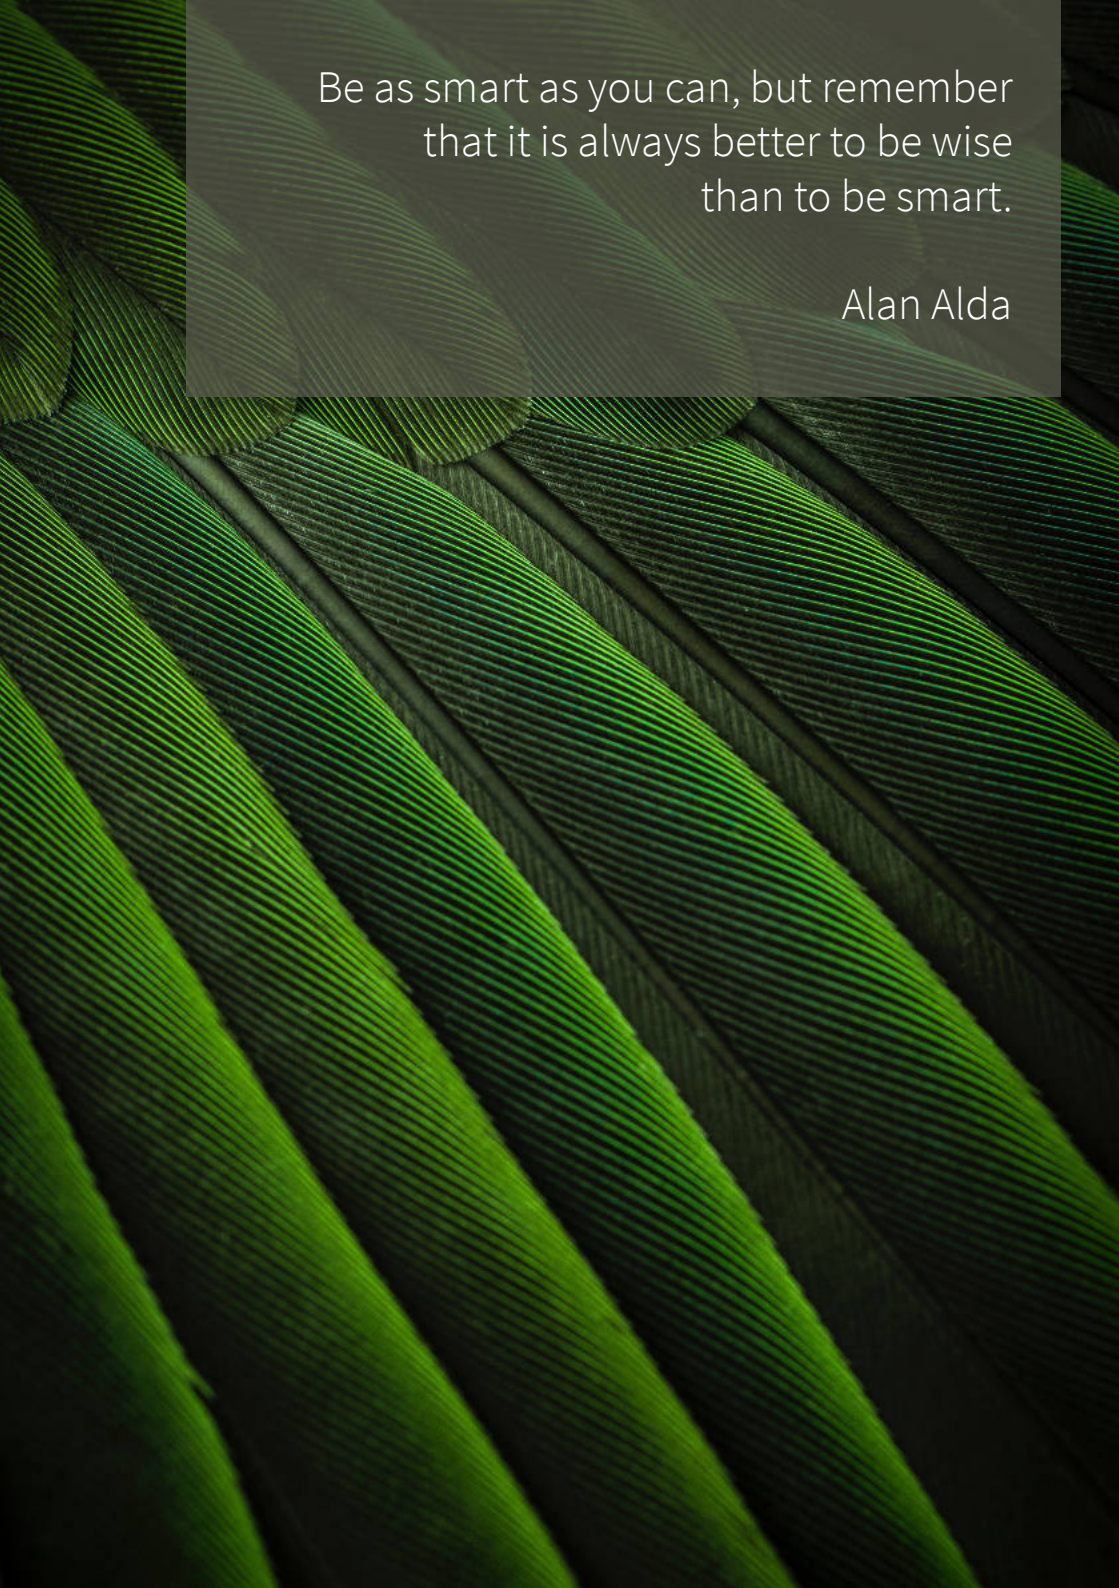

Mrs Smith: Is it \_\_\_\_\_ good map?

Mr Smith: Oh yes. And where are \_\_\_\_\_ boys?

Mrs Smith: They are in \_\_\_\_\_ garden.

Be as smart as you can, but remember  
that it is always better to be wise  
than to be smart.

Alan Alda

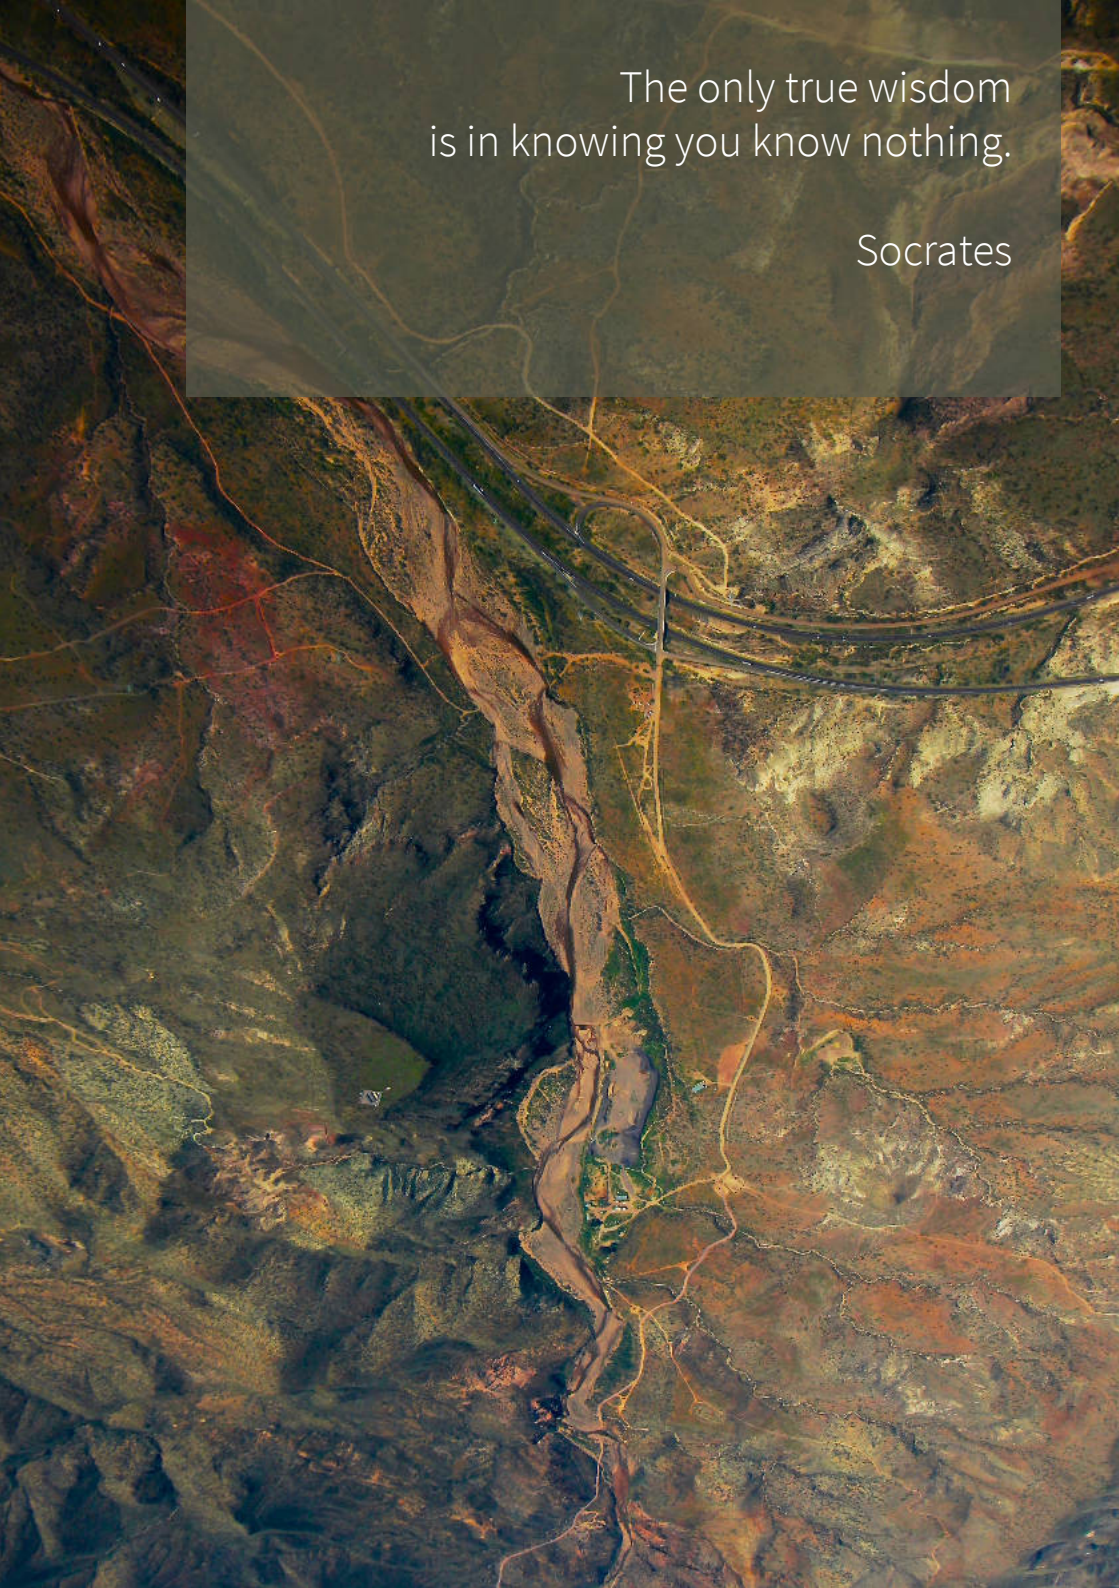

# STATISTICS

Publi gives you a sophisticated feedback in the form of statistics tables or charts. You can easily see who, when, or on what device and from which IP address your documents have been read. You can choose a time period, a group of users, or any particular document for statistics.

# 15

An aerial photograph of a river valley. A multi-lane highway runs horizontally across the upper right portion of the image. A river winds through the center of the valley, surrounded by lush green vegetation. The surrounding landscape is rugged and hilly, with various shades of green, brown, and grey. A semi-transparent dark grey rectangular box is overlaid on the top half of the image, containing white text.

The only true wisdom  
is in knowing you know nothing.

Socrates

# SHARING

Publi is ready to share any book of any library with other libraries in the system. For example – a university can share books or other documents with any university library in the system.

With Publi, you can share all publications across a company, large organization or government authority, even between them. Documents you could share, besides multimedia books and periodicals, can include e.g. standards, norms, regulations, technical documentation, manuals and guides, bulletins, laws and ordinances. You can safely deliver all of this to anyone and set from which device and at what time documents will be accessible.
